

Report Brief
Compliance to Chronic Homeless Data Completion
 For the Month of February 2018

C. Peraro Consulting, HMIS Administrator, State of Hawaii

The CPC HMIS team completed an analysis reviewing data completion for the “Chronic Homeless” fields for new adult intakes (n=1,017) during February 2018. Key findings of the report include:

All Cases Entered during February 2018:

- A total of 116 out of 1,017 (11%) reported MISSING DATA (including data not collected or client refused) under the Chronic homeless field, a 4-percentage point decrease compared to January 2018 (153 records missing data out of 1,049 records).
- 91 of the 116 intakes (79%) with missing data were new OUTREACH intakes
- Of Oahu’s 684 intakes, 97 (14%) lacked data for the chronic homeless field, a 3-percentage point decrease compared to January 2018 with 123 records missing data out of 720 records.
- Missing data was reported for the chronic homeless field for Maui (16 cases), Hawaii (2 cases); and Kauai (1 case).
- *Two Outreach organizations on Oahu accounted for 60 of the 116 cases (51%) with missing data including the Kalihi Palama Health Center (23 missing cases) and Waianae Coast Comprehensive Health Center (37 missing cases). This represents an improvement compared to previous months (68% of cases in Jan 2018).*

All Cases active during February 2018:

- A total of 11%, or 890 out of 7,832 adults, contained missing data necessary to calculate the chronic homeless field. This is a 38% decline compared to the 49% rate of missing data in the February 2017 report.
- Comparing missing data by program type, Outreach had the highest level with 31%, followed by Services Only (9%), Permanent Supportive Housing and Transitional Housing (7%), Emergency Shelter and Rapid Rehousing (5%).
- Homeless Prevention showed a missing rate of 9% (69 cases) with 2 cases reported as chronically homeless. Adults served by homeless prevention programs should not be chronically homeless.
- Due to the design of entering street outreach information into the HMIS, the chronic homeless fields are not entered for outreach cases until they become “engaged”, this in turn contributes to high missing CH rates. Interpretation of the missing rate among these cases must take this into consideration.

The following table summarizes the MISSING status of all active ADULT cases (n=7,832) in the system during the month of February 2018 by Program Type. Outreach records (526) represent approximately 59% of all cases with missing data followed by Permanent Housing (98), which represents approximately 11%. Missing rates > 10% are marked in RED.

Type of Program	No	Yes	Missing	Grand Total	% Missing
Emergency Shelter (ES)	1,200	280	61	1,541	4%
