

Report Brief
Compliance to Chronic Homeless Data Completion
 For the Month of May 2018

C. Peraro Consulting, HMIS Administrator, State of Hawaii

The CPC HMIS team completed an analysis reviewing data completion for the “Chronic Homeless” fields for new adult intakes (n=1,025) during May 2018. Key findings of the report include:

All Cases Entering during May 2018:

- A total of 86 out of 1,025 (8%) reported MISSING DATA (including data not collected or client refused) under the Chronic homeless field, the same rate as in April 2018 (91 records missing data out of 1,091 records); a significant decrease compared to April 2017 when the missing data rate was 19%.
- 59 of the 86 intakes (69%) with missing data were new OUTREACH intakes
- Of Oahu’s 695 intakes, 70 (10%) lacked data for the chronic homeless field. Missing data was reported in the chronic homeless field for Maui (15 cases) and Hawaii (1 cases). Kauai had no cases with missing data.

All Cases active as of May 31, 2018:

- 10%, or 778 out of 8,017 active adults, contained missing data necessary to calculate the chronic homeless field. This is one percentage point less than April 2018, representing a continued downward trend since the 30% rate of missing data in the April 2017 report.
- Comparing missing data by program type, Outreach had the highest level with 25%, followed by Homeless Prevention (9%), Permanent Supportive Housing (7%), Services Only (6%), Transitional Housing (5%), Emergency Shelter (4%), and Rapid Rehousing (3%).
- Homeless Prevention’s data show a missing rate of 9% (68 cases) and 2 cases reported as chronically homeless. Adults served by homeless prevention programs should not be chronically homeless.
- Due to the design of entering street outreach information into the HMIS, the chronic homeless fields are not entered for outreach cases until they become “engaged”, this in turn contributes to high missing CH rates. Interpretation of the missing rate among these cases must take this into consideration.

The following table summarizes the MISSING status of all active ADULT cases (n=8,017) in the system during the month of May 2018 by Program Type. Outreach records (460) represent approximately 59% of all cases with missing data followed by Permanent Housing (89), which represents approximately 11%. Missing rates > 10% are marked in RED.

Type of Program	No	Yes	Missing	Grand Total	% Missing
