

**Report Brief**  
**Compliance to Chronic Homeless Data Completion**  
 For the Month of August 2019

Ka Mana O Na Helu, HMIS Administration

The Ka Mana O Na Helu HMIS administrative team completed an analysis reviewing data completion for the “Chronic Homeless” fields for new adult intakes (n=829) during August 2019. As of the June 2019 report, client records for street outreach programs are only included in the analysis if clients were “engaged”, meaning their HMIS records had engagement dates. Per HMIS data standards, reporting on data quality for street outreach projects is limited to clients with a Date of Engagement (data element 4.13). Key findings of the report include:

All Cases Entered during August 2019, but Street Outreach Cases only with Engagement Dates:

- A total of 17 out of 829 (2%) reported MISSING DATA (including data not collected or client refused) under the Chronic homeless field. This is a 4-percentage point decrease compared to July.
- 47% of the intakes with missing data were from ES (7 clients). The remaining 10 intakes with missing data were distributed across the other program types.
- Of the 17 intakes, that lacked data for the chronic homeless field, 14 were from Oahu and 3 were from Maui.

All Cases Active as of August 31, 2019, but Street Outreach Cases only with Engagement Dates:

- A total of 4%, or 237 out of 5,418 adults, were missing the data necessary to calculate the chronic homeless field.
- Comparing missing data by program type, homeless prevention and services only (7%) were highest, followed by permanent supportive housing (5%), rapid rehousing and transitional housing (4%), emergency shelter (3%), and street outreach clients with engagement dates (1%).
- Homeless Prevention’s data show five cases reported as chronically homeless. Adults served by homeless prevention programs should not be chronically homeless.

All Active Outreach Cases as of August 31, 2019 with and without Engagement Dates (page 10):

- Table on the left shows a total of 476 cases with dates of engagement.
- Table on the right shows a total of 421 cases without dates of engagement.
- Percent of missing data for outreach cases with engagement dates is 1% (5/476 cases) compared to 36% (153/421) for outreach cases without engagement dates; a 5-percentage point decrease compared to June 2019.
- Of Oahu’s 291 cases without engagement dates, 76 cases lacked data for the chronic homeless field (26%). Of Maui’s 105 cases, 77 lacked data (73%); Hawaii and Kauai had 0% that lacked data.

The following table summarizes the MISSING data status of active ADULT cases (n=5,418) in the system as of August 31, 2019 by Program Type. Street Outreach includes only clients with engagement dates.

Program Types	No	Yes	Missing	Grand Total	% Missing
Emergency Shelter (ES)	867	279	35	1,181	3%
Homelessness Prevention	751	5	59	815	7%
