

Summary of Key Points
Analysis of Exit Destinations by County, Program Type, and Organization
For February 2018

C. Peraro Consulting, HMIS Administrator, State of Hawaii

The HMIS admin team completed analysis of client exit destinations from HMIS program discharge records for the month of February 2018 (n = 919). The analysis presents findings by county, over program type, and by org/program.

The summary tables show the total exits by destination category, along with permanent housing exit rates. Analysis also includes the total number of exits with unknown exit destination type along with the corresponding exit rates.

Key findings of the monthly reporting include:

- In aggregate, the PH exit rate for February was 46% with 421 of 919 exits leaving to PH destinations, continuing an increasing trend since July 2017 (33%).
- Of the 421 PH exits, Emergency Shelter programs exited 128 clients to PH (30%) and Transitional Housing programs exited 78 clients to PH (19%).
- Street Outreach and Emergency Shelter project types should not be evaluated solely on exits to PH. Often, placements into institutional settings, transitional shelters, or residential projects are positive outcomes for these project types.
- February PH rates descending by county were Oahu (47%), Maui (46%), Hawaii (41%), and Kauai (32%).
- Homeless Prevention and Rapid Re-Housing projects had the highest PH exit rates (84% and 78% respectively) due to the inherent nature of these programs, however, one would expect that these rates be closer to 100%.
- The number of clients with unknown exit data continued to trend downward with 184 clients in February 2018. The missing exit data rate was 20%, the same as January, but lower than in December 2017 (27%).
- Maui and Hawaii had the greatest proportion of exits to unknown locations in February, with 22% (44 exits) for Maui and 26% (37 exits) for Hawaii. Usually ES or Outreach projects represent the vast majority of these exits.
- Oahu Services Only programs (56%) and Hawaii's Homeless Outreach programs (47%) had the highest rates of missing exits in February. Oahu Homeless Outreach program missing exit rate decreased slightly to (43%), still a significant decrease compared to December's missing exit rate of 80%.

Analysis of Exits to Permanent Housing - February 2018
