

Summary of Key Points
Analysis of Exit Destinations by County, Program Type, and Organization
Neighbor Islands – Bridging the Gap

For February 2020

Ka Mana O Na Helu, HMIS Administration

The HMIS administrative team completed analysis of client exit destinations from HMIS Bridging the Gap program discharge records for the month of February 2020 (n = 321). The analysis presents findings by county, over program type, and by org/program.

The summary tables show the total exits by destination category, along with permanent housing (PH) exit rates. The analysis also includes the total number of exits with unknown exit destination type along with the corresponding exit rates.

Key findings of the monthly reporting include:

- In aggregate, the PH exit rate for February was 57%, with 184 of 321 exits leaving to PH destinations, a decrease compared to January 2020 (62%). BTG’s PH exit rate averaged 57% over the last 6 months. This is the period that BTG data tracking has been separated from PIC programs; the combined statewide average PH exit rate was 54% from February through August 2019.
- Of the 184 exits to PH, homeless prevention programs exited 54 clients to PH (29%), emergency shelter exited 53 clients to PH (29%), rapid re-housing programs exited 40 clients to PH (22%), street outreach exited 28 clients to PH (15%), and transitional facilities exited 8 clients to PH (4%).
- February PH rates descending by county were Kauai (96%), Hawaii (65%), and Maui (38%).
- Homeless prevention and rapid re-housing programs’ PH exit rates dropped this month to 68% and 82% respectively, a significant decrease compared to January rates: 100% and 97% respectively. The average rates for 2019 were 92% for homeless prevention and 84% for rapid re-housing programs. Due to the inherent nature of these programs, one would expect that these PH exit rates be near 100%.
- The missing exit data rate for February was 17%, an increase compared to January (6%), and slightly above the average for the past 6 months (16%).
- Hawaii had the greatest number of exits to unknown locations in February (39 exits) with homelessness prevention and rapid re-housing accounting for most of these exits. Hawaii had 15 exits to unknown locations with emergency shelter accounting for 12 of these exits.
