

Summary of Key Points
Analysis of Exit Destinations by County, Program Type, and Organization
Neighbor Islands – Bridging the Gap

For May 2020

Ka Mana O Na Helu, HMIS Administration

The HMIS administrative team completed analysis of client exit destinations from HMIS Bridging the Gap program discharge records for the month of May 2020 (n = 232). This analysis presents findings by county, over program type, and by org/program.

The summary tables show the total exits by destination category, along with permanent housing (PH) exit rates. The analysis also includes the total number of exits with unknown exit destination type along with the corresponding exit rates.

Key findings of the monthly reporting include:

- In aggregate, the PH exit rate for May was 44%, with 103 of 232 exits leaving to PH destinations, a decrease compared to April 2020 (51%). BTG’s PH exit rate averaged 54% over the last 9 months. This is the period that BTG data tracking has been separated from PIC programs; the combined statewide average PH exit rate was 54% from May through August 2019.
- Of the 103 exits to PH, emergency shelter exited 26 clients to PH (25%), street outreach exited 25 clients to PH (24%), transitional programs exited 23 clients to PH (22%), rapid re-housing programs exited 15 clients to PH (15%), homeless prevention programs exited 11 clients to PH (11%), and permanent supporting housing exited 3 clients to PH (3%).
- May PH exit rates descending by county were Hawaii (59%), Maui (43%) and Kauai (24%).
- The homeless prevention programs’ PH exit rate was 61% in May, a 39-percentage point decrease from 100% in April. The PH exit rate for rapid re-housing programs increased from 88% in April to 94% in May. The average PH rates for 2019 were 92% for homeless prevention and 84% for rapid re-housing programs. Due to the inherent nature of these programs, one would expect that these PH exit rates be near 100%.
- The missing exit data rate for May was 6%, an increase compared to April (5%), though below the average for the past 9 months (12%).
- Kauai had the greatest number of exits to unknown locations in May (6 exits) followed by Hawaii and Maui, each with 4 exits to unknown locations.
