Re: February 2019 HMIS Monitoring Reports

Attached for your review and dissemination to Continuum agencies is the February 2019 HMIS monitoring report. Below are brief highlights from the attached reports.

1) End of month, February 2019 Census summary by Continuum and Statewide (pp. 2-8)

- The Statewide census for emergency and transitional programs increased slightly in February 2019 (2,470), compared to January 2018 (2,384¹) with an increase in both program types for Oahu and an increase for emergency, but slight decrease for transitional programs for Neighbor Islands.
- The total "vacant beds" compared to the HIC bed capacity was 538 (ES and TH) and 395(PSH). This is a decrease from last month for ES and an increase for TH programs. HIC openings can also vary depending on differences in household size.
- 40 programs on Oahu and 22 programs on the Neighbor Islands had utilization rates of less than 85% or greater than 110%. These programs are marked in red.
- Statewide active outreach clients totaled 1,144 (840 on Oahu and 304 on the Neighbor Islands).
- 2) Consent report for February 2019 (pp. 9-18)
 - VI-SPDAT Assessments: Consent to share data rates for Neighbor Islands and Oahu programs were 97% and 94% respectively; (January's rates: 96% and 92% respectively). (bottom page 9)
 - By Name List: Consent to share data rates as of the 3/05/19, BNL cut was 95% statewide one percentage point decrease from the January 2019 report. February rates included: Oahu Families (86%) and Singles (98%). Neighbor Island family and singles rates ranged from 91% (Kauai Families) to 100% (Hawaii, Kauai and Maui Singles). (page 10).
 - For adult program intakes entered in February 2019 (n=789), the statewide consent to share was 96%, the same as the January report, and a sustained improvement from August 2017 (55%).
 - Three programs (pp. 11-14) had consent rates below 80% (February Intakes) highlighted in RED.
- 3) Length of Stay by Agency and Program for clients exiting during February 2019 (pp. 19-22)
 - The average LOS over all programs was 197 days (representing 1,050 exits), an increase compared to January 2019 (170 days). If the 21 permanent supportive housing programs exits are omitted, the average LOS was 177 days.
 - Overall, emergency shelter and outreach programs' LOS were the shortest (113 and 118 days). PSH and Rapid Re-Housing LOS were the longest (1,144 and 276 days); TH was next (244).
 - By County, Oahu (210 days) and Hawaii (194 days) averaged the longest LOS, followed by Kauai (173 days) and Maui (128 days). Of note is that the average includes PH projects, which heavily skew this statistic.
 - Emergency Shelter LOS ranged from 76 days on Hawaii to 118 days on Maui. January's ES LOS ranged from 62 days (Hawaii) to 198 days (Maui).
- 4) Timeliness (entries and exits) during February 2019 (pp. 23-28)
 - Intake Timeliness was 2.40 average days, a slight increase compared to 2.24 average days in January. 43 programs (highlighted in RED) averaged more than 3 days to enterintakes.
 - Exit timeliness decreased to 2.18 average days compared to 3.54 days in January, a significant decrease.
 - 29 programs (highlighted in RED) averaged more than 3 days to enter exits.

¹ This figure for January is a correction. Some errors were found in the January census report and have been corrected in this memo and in the summary table that follows.

Summary of Monthly HMIS Shelter Census Counts

March 2018 - February 2019

Highlights indicate that corrections were made. Errors were found in the January reports.
